- Graphic Overlays and Labels
- Resistive and Capacitive Touchscreens
- LCD and OLED Displays
- Backplates, Housings and Enclosures
- Electro/Mechanical Assembly
- Panel and Box Build Assembly
- Project Management

Formed in May 1995, The Membrane Keyboard Company Ltd supply innovative and bespoke HMI solutions into a diverse range of market sectors.

From front panel interfaces (Membrane Keyboards, Silicone Rubber Key mats, Touchscreens & Graphic Overlays) through to turnkey box build assembly (fabrication, backplates enclosures & electronic manufacture).

We take pride in designing and manufacturing custom products which meet our customers exact technical, functional and ergonomic needs.

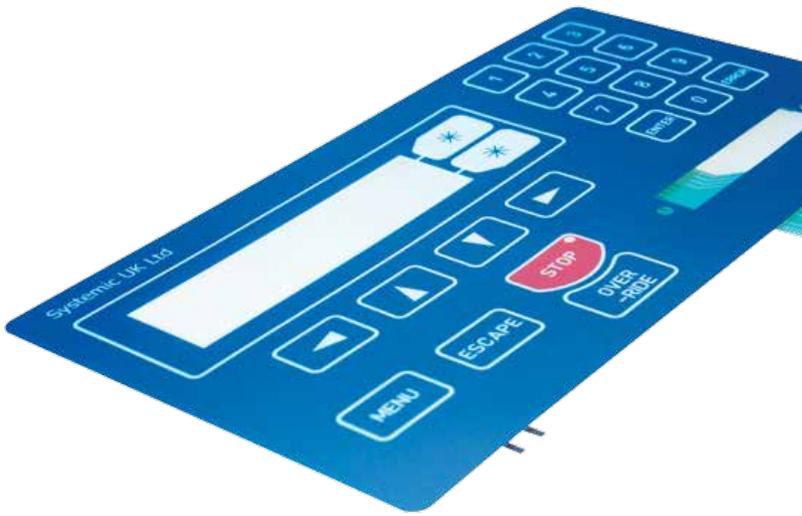

For over 20 years we have worked in partnership with our customers to provide products which are suitable for application and environment whilst employing the latest high quality materials and new technologies.

Our flexible approach to supply allows us to offer spot buy, scheduled, Kanban, E-Ban, call off and contract ordering systems whilst passing on the cost benefit and continuity of supply to our customers.

Continuous improvement and attention to quality is fundamental to everything we do. As an ISO accredited company you can be assured that your product has been manufactured to the highest standards. ■
