

PRINTED OVERLAYS AND LABELS

Our overlays and labels compliment functionality with visual impact.

We recognise the importance of these parts as both a functional and graphic representation of your product in the field.

We can manufacture or source Printed Overlays and Labels as part of a Keypad or as a stand alone item.

Our capabilities include:

- In house custom design from concept to completion.
- Replication from schematics and/or sample.
- Application defined overlay and adhesive systems.
- Platen pressed.
- Laser cut.
- Colours can be sourced from our existing colour range of mixed to custom specification.
- A range of surface textures defined by material and ink.
- Clear, anti-glare or tinted window print.
- Graduated Print.
- Secret till lit print.
- Anti bacterial coating (under customer license only).
- Emboss facility (Dome, Rim or Pillow)
- Material finishes can include fine or velvet plus UV and abrasive resistant options.

Typically we will manufacture in either Polyester or Polycarbonate, however, our extensive supply chain allows us to source a variety of materials depending on each products individual requirement. Please do not hesitate to contact us should you require specific data sheets.

These figures should be used as a general guide only and will vary according to design and product.
